

**COLOUR-COTE™**  
COLOURED GLASS SYSTEMS

## Clear Solutions For Those Who Dream Of Colour

Imagine the time and money you could save by having the ability to *inexpensively colour your own glass*. Well that dream is a reality when you use Glasslam's revolutionary **Colour-Cote™** spray-on-glass painting system.

Countless glass shops and glass fabricators of all sizes already know that they can custom create even the smallest projects in beautiful colour at very low cost. With

**Colour-Cote™**, the paint is easily applied, dries to the touch within minutes, and cures – all at room temperature. You can even apply the colour to match frame units utilizing the same exact process, providing an endless array of high-end interior and exterior architectural designs, at a fraction of the cost.

The applications and advantages of **Colour-Cote™** are endless.

Coloured glass is not only beautiful in appearance; it is also a non-porous, water resistant, extremely

hygienic building material. **Colour-Cote™** treated glass is ideal for wall coverings in kitchens, bathrooms, as countertops, and for a wide range of commercial applications. It is also the perfect product for spandrel applications. Your options are only limited by your imagination.

**So, start dreaming.**

*Colour-Cote™ is in stock and available for immediate delivery.*

*Now you can create your own coloured glass instantly at very low cost with little or no waste.*

# 1 INNOVATIVE PRODUCT, 3 UNIQUE OPTIONS

# colour-cote™

We make getting started with Colour-Cote™ almost as easy as the painting process itself. From smaller one or two man independent shops, to the large glass fabricators, everyone

can easily incorporate coloured glass into their product offerings.

**Here are 3 easy options to choose from.**

## OPTION 1 The 6 Most Popular Industry Colours

Colour-Cote™ is in stock and available for immediate delivery.

Supplied as a 2-Component kit, 1 gallon of A with 0.90 gallon of B, each kit yields approximately 350 sq. ft.

**WHITE**  
#CC 0901

**BLACK**  
#CC 0950

**SILVER**  
#CC 0990

**RED**  
#CC 0928

**YELLOW**  
#CC 0911

**BLUE**  
#CC 0947

## OPTION 2 We'll Custom Match Any Colour

In accordance with Pantone or RAL charts, or from a colour swatch supplied by your customer you can produce a rainbow of colours using the same simple system.

## OPTION 3 Your Own In-House Colour Mixing System

Reduce turn around time and cost with the in-house mixing system by mixing only what you need, when you need it!

This unique system includes 22 pigments, for millions of colours, an automatic mixing station, and proprietary software, which enables you to easily and instantly duplicate RAL, Pantone, and visual Swatch Colours. Just follow the formula to quickly mix the colour of your choice.

Colour-Cote™ has been independently tested to assure a durable and reliable finish. The following are just some of the testing programs.

B.S. 1006: 1961 Grey scale  
B.S. 1006: A02 assessing scale  
Test conducted on a Xenotest 150  
1-8 blue wool scale

ASTM D3359 Adhesion Test  
BS EN ISO 4624 Adhesion Test  
SAE J 1960 Accelerated Weathering

A light fastness of 7+ was achieved on the entire range of colours tested, which results in Colour-Cote™ having a 10-year internal (monolithic) & a 10-year external laminated guarantee.
