

Foam Spacer Application Shuttles

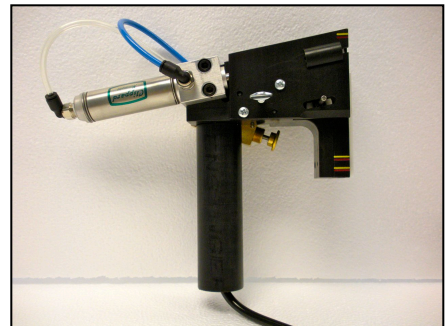

AirShuttle™ ASI (internal circular notch)

Glasslam's AirShuttle™ ASI is pneumatically powered and designed for the application of Air-Tight™ Spacer Products. The ASI creates a circular interior notch and is recommended for Air-Tight™ silicone spacer products. Adjustable guide blocks accommodate various setback distances for secondary sealant.

AirShuttle™ ASE (external corner notch)

Glasslam's AirShuttle™ ASE is pneumatically powered and designed for the application of Air-Tight™ Spacer Products. The ASE creates an exterior corner notch and is recommended for both Air-Tight™ silicone and EPDM products. Adjustable guide blocks accommodate various setback distances for secondary sealant.
