

AIR-TIGHT™ S

THE SILICONE FOAM SPACER

THE ORIGINAL SILICONE FOAM SPACER FOR INSULATING GLASS

Air-Tight™ S is a flexible, highly desiccated silicone foam spacer. The Air-Tight™ spacer system provides excellent UV resistance, energy saving thermal performance, condensation resistance, durability, sound reduction and gas retention. Air-Tight™ S is the high density desiccant formula with 20+ years of proven performance.
